+91 - 8919752306 | [LinkedIN](#) | [Github](#) | [Leetcode](#) | mohammedraheez3@gmail.com

SKILLS

- C/C++, JAVA, Python, MongoDB, SQL, NoSQL, Mongoose, ReactJS, ReactLazyLoading, Redux, NextJS, SEO Optimization, Docker, AWS, EC2, EBS, S3, RDS, Data Pipeline, CI/CD.

EXPERIENCE

Software Development Engineer (SDE)

ChaturaIT Learnings

- Played a key role in developing mission-critical software products, focusing on usability, performance, and scalability.
- Designed and implemented REST APIs to enable seamless communication between frontend and backend systems.
- Utilized AWS services such as EBS, EC2, S3, and RDS to architect scalable and fault-tolerant cloud solutions.
- Collaborated with product managers and UI/UX designers to translate business requirements into technical specifications.
- Conducted thorough code reviews and unit tests to maintain code quality and identify potential areas for improvement.
- Actively participated in sprint planning, backlog grooming, and sprint demo sessions, ensuring alignment with project timelines and deliverables.
- Championed continuous integration and continuous deployment (CI/CD) practices, automating build, test, and deployment pipelines for increased efficiency and reliability.

Software Developer and Instructor

Being Zero

- Led software development projects focusing on practical solutions using the MERN Stack.
- Facilitated workshops and training sessions to empower aspiring developers with industry-relevant skills and knowledge.
- Mentored junior developers, and guided best practices, code reviews, and troubleshooting techniques.
- Collaborated with cross-functional teams to define project requirements, design architectures, and implement scalable solutions.
- Led the integration of push notification systems, enhancing user engagement and retention in mobile applications.
- Conducted regular code refactoring and optimization to improve performance and maintainability of existing codebases.
- Contributed to the open-source community by sharing code snippets, tutorials, and insights on emerging technologies.

Java Full Stack Engineer (Intern)

Cognizant

- Completed a comprehensive internship program, gaining hands-on experience in Java Full Stack development.
- Assisted in designing and implementing RESTful APIs, contributing to the development of backend services.
- Collaborated with senior engineers to troubleshoot and debug issues, ensuring the timely delivery of high-quality software.
- Acquired proficiency in Docker and AWS, deploying applications in containerized environments and leveraging cloud services for scalability and reliability.
- Participated in Agile scrum ceremonies, including daily stand-ups, sprint planning, and retrospective meetings.

EDUCATION

CMR COLLEGE OF ENGINEERING AND TECHNOLOGY

B.Tech | 8.5 CGPA

Electronics & Communication Engineering
